The 10 Golden Rules of

Dive like your shadow!
Don’t leave any trace
Be a sensible part of underwater world, not an alien!

1. Never enter the water through reed, living corals or water plants.
2. Control your buoyancy
3. Keep distance from corals and other animals and do not stir up the sediment
4. Take care where dropping anchor during boats dives
5. Do not chase, touch or feed wild animals
6. Do not spearfish (for fun), and do not buy or collect souvenirs such as corals and shells
7. Be very careful when diving in caves. Bubbles and simple contact may destroy their delicate life
8. Keep the diving places clean
9. Learn about the underwater life and avoid any destruction
10. Urge your buddies to follow these rules, too
