Finswimming Commission

TECHNICAL NOTICE
Management of “Out Of Race” (“OoR”) in competitions

This note concerns the “Out Of Race” events management during the World Cup and Golden Finale.

1. What is “Out O Race” (“OoR”)?

“Out-of-race” (“OoR”) status permits the clubs or federations to register some athletes in addition to the rules. But when the athletes are registered as “OoR”, they swim the relevant events, but they aren't in classification and have no points.

For example, you can see below the results of Leipzig. After the classification, and the athletes did not start or are disqualified, you have the list of the athletes “OoR”.

2. Why do you have to use OoR for the registration?

Rules of World Cup Finswimming, Version 2023/01, points 1.11 and 1.13:

During the world cup of Finswimming, in the individual event:

- 1.11: Each competitor can participate in a maximum of four (4) individual races and two (2) relays.
- 1.13: Each National Team or club can enrol a maximum of four (4) swimmers for each individual race. Suppose one National Team or Club wants one athlete to participate in more than these four individual races or wants to register more than two athletes per event; in that case, he must declare when he registers the athlete which one is/are in addition, and this case, no point and classification rank are applying for these additional races.

These cases are “OoR” events.
3. **How to register an athlete in an event with the status “OoR”**

When you choose the events in SportData and enter the time of registration, the date and place, When you leave the field empty, the athlete is registered normally to compete in classification.

If you can, click OoR. In this case, the athlete is registered OoR.

| The athlete is registered commonly and competes for the medals and classification |
| The athlete is registered Our Of Race and doesn’t compete for the medals and classification |

Please pay attention to this operation because it won’t be impossible to change after closing registration.

It notifies you that you can change the status after registration but before the ✔ registration deadline.
